Rotisseries Electric

ACR 8 Intelligent

The self-cleaning feature of the Auto Clean Rotisserie will save you at least an hour of labour every day. It is the first rotisserie that is as convenient for the operator as it is for the customer. Cleaning can be done overnight, enabling the operator to spend his valuable time on attending customers.

The Cook Correction Technology corrects alterations in the cooking cycle that are due to half-loads, overloads, or products with a difference in temperature. It measures abnormalities in the temperature curve and corrects the cycle automatically, ensuring energy-efficient and consistent cooking.

The ACR is a pleasure to use. A consistent cooking cycle is guaranteed as operators are instructed on how to follow the right grilling procedure.

The first self-cleaning rotisserie

ACR 8 Intelligent

Dimensions ACR 8

Width	1325 mm
Depth	990 mm
Height	1130 mm
Height on stand	1840 mm

Technical data ACR 8

Net weight	310 kg
Net weight on stand	380 kg
Gross weight	357 kg
Gross weight on stand	445 kg
Voltage	400/230 V 3N~
Frequency	50...60 Hz
Power	14.5 kW

** Specifications and technical data are subject to amendment without prior notice*

The ACR is preferably supplied on a stand to provide for grease disposal and drain connections of the unit.

These are basic drawings. For more detailed technical information, please refer to the installation manual at www.frijado.com.
