

Top features

- High output: cooks in 60 minutes
- Saves up to 25% on energy use
- Cook correction technology and eco-cooking save an additional 5% on energy use

Standard characteristics

- 5 Meat fork, V-spit, basket or rack positions
- Rotor for up to 20 chicken (1,2 kg) per batch
- Cook time of 60 minutes*
- Max output in 6 hours: $360/60 \times 20 = 120^{**}$
- Controls with programmable settings
- 99 programs with up to 3 cook stages per program
- USB connection for easy transfer of data and programs
- Boost functionality to add extra time
- Outstanding food quality: high-speed convection for even cooking
- Outstanding food quality: radiant heat for uniform browning
- Striking cooking theatre due to large glass surface and brilliant lighting
- Safety stop when opening the door
- Cool double glass doors, safe to touch
- No water and drain connections needed

* Based on 1,0 kg. Cook times may vary according to size, marinade, stuffing etc.

** Indication; does not include loading / unloading

Accessories

- Meat forks (included), multi-purpose baskets, V-spits and chicken racks
- Matching stand on castors

Optional

- Fri-Jado XP450 non-stick coating on drip plates and accessories
- Double stacked unit
- Pass through (upon request)

Programmable controls

Rotisseries Electric

TDR 5 Programmable^{eco}

The Turbo Deli Rotisserie is the fastest original rotisserie in the industry. The TDR's cavity is fed with air, cooking a rotisserie chicken as it is meant to be: crispy and delicious while maintaining an attractive appearance for hours.

The TDR pushes the air throughout the cavity, resulting in an improved heat transfer on the products and consequently in a reduced electricity consumption during the preparation process.

Thanks to eco-cooking and the cook correction technology the TDR saves an additional 5% on energy use during the cooking cycle. Add to this the improved heat transfer on the products and a fast preparation process and you have yourself the most energy-efficient rotisserie with a high output.

Fast and energy saving

TDR 5

Programmable^{eco}

Item Description

- | | |
|---|---------------------|
| 1 | Power cable 2.2 m |
| 2 | Exhaust opening |
| 3 | Space to the wall |
| 4 | Location for socket |

Dimensions TDR 5

Width	835 mm
Depth	660 mm
Height	895 mm
Height incl. stand	1755 mm

Dimensions TDR 5+5

Width	835 mm
Depth	660 mm
Height	1775 mm

Technical data TDR 5

Net weight	130 kg
Gross weight	152 kg
Voltage	400/230 V 3N~
Frequency	50...60 Hz
Power	6.6 kW
Capacity	20 kg

Technical data TDR 5+5

Net weight	266 kg
Gross weight	306 kg
Voltage	400/230 V 3N~
Frequency	50...60 Hz
Power	13.2 kW
Capacity	40 kg

These are basic drawings. For more detailed technical information, please refer to the installation manual at www.frijado.com.
