

RANGE COMPOSITION

EVO900: a range designed to guarantee the highest level of performance, reliability, energy saving, safety standards and ergonomic operation. These concepts are reflected throughout the line in its modularity, construction and numerous configurations: countertop (on base or table), free-standing, on concrete or stainless steel plinth, bridged or cantilever. Thanks to its advanced technology and premium performance, EVO900 is a perfect solution for restaurants as well as large institutions needing high power and high productivity.

The models detailed on this sheet are 2 electric grills in half and a full module versions ideal for grilling fish and meats.

EVO900

ELECTRIC GRILLS **ZANUSSI** PROFESSIONAL

FUNCTIONAL AND CONSTRUCTION FEATURES

- ◆ The electric grill is ideal for grilling meat, fish or vegetables to perfection by placing the food directly on the cast iron cooking grids.
- ◆ Incoloy armoured heating elements positioned beneath the cooking grids.
- ◆ Each half module is provided with one bank of three heating elements (2,5 Kw each).
- ◆ Temperature control thermostat for each bank of elements.
- ◆ 'Power on' indicator light.
- ◆ Worktop in 20/10 stainless steel. Front and side panels in stainless steel with Scotch Brite finish.
- ◆ All models have right-angled side edges to allow flush fitting joins between units, eliminating gaps and possible dirt traps.
- ◆ Large pull-out excess fat container. The use of water in those containers permits the fast lowering

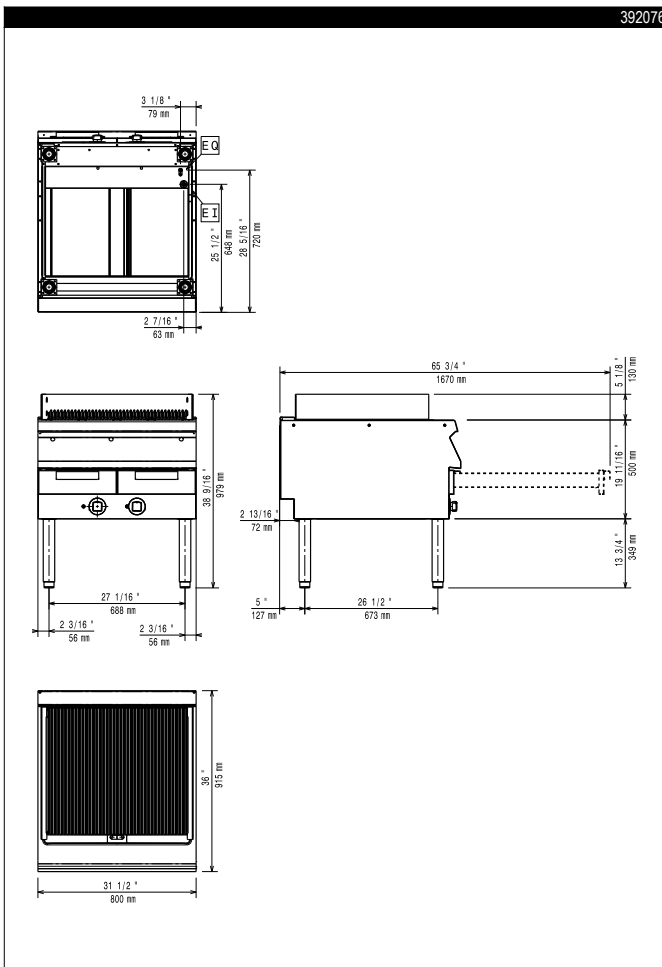

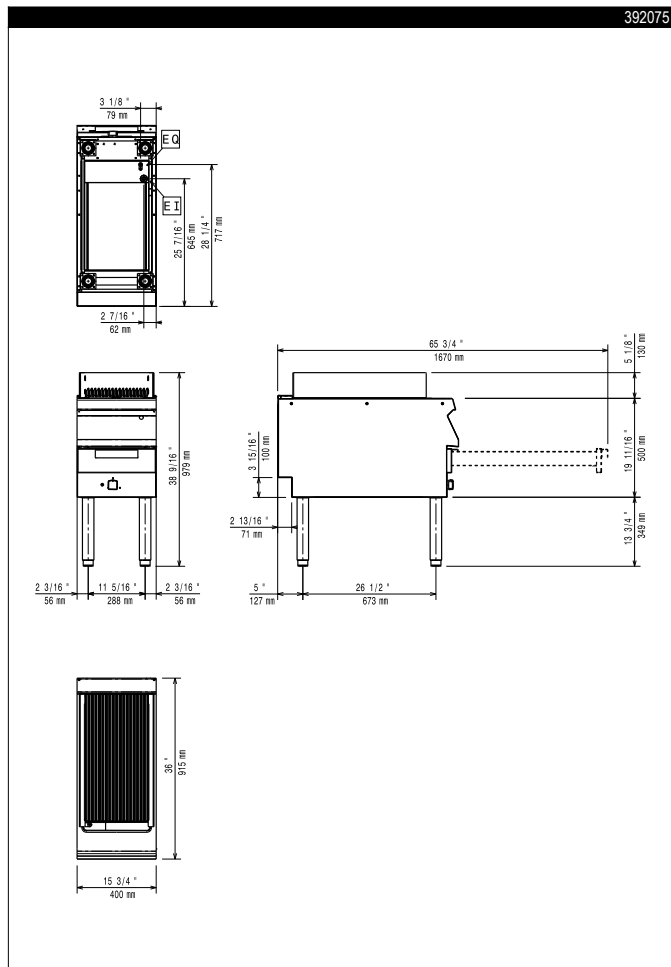

of the fats temperature thus guaranteeing a genuine cooking and the evaporation of the water permits to maintain the foods delicate.

- ◆ Very fast heat-up time to maximum temperature.
- ◆ The multi-purpose cast iron grids are suitable on two sides: the first side, sloped with drainage channels, can be dedicated to very fatty meats and the second side, flat, can be used to cook fish, vegetables or hamburgers.
- ◆ Splash-guard in stainless steel covers back and sides of the cooking surface and is dishwasher safe.
- ◆ The special design of the control

knob system guarantees against water infiltration.

- ◆ All models can be installed on cantilever system.
- ◆ Main connections can be via the base of the unit.
- ◆ Feet in stainless steel are adjustable up to 50 mm in height.
- ◆ All models provided with service duct to facilitate installation.
- ◆ IPX5 water protection.
